Booking Options

Shotgun: A shotgun start refers to a method in which every golfer begins at the same time but on different holes. This is a great format for groups of 144 players or more that require exclusive access to the course because it allows every player to complete their game at the same time, allowing a smooth transition from the golf portion of your day to the evening's festivities.

Modified Shotgun: A modified shotgun is a starting method that is not offered by many facilities but is of great advantage to groups who are looking for the benefits of a shotgun start without the required number of guests to do so. Whenever possible, Westwood Plateau will offer a modified shotgun to groups of 56 to 140 players. All modified shotguns start at 1:30pm unless otherwise stated by the Golf Operations Manager.

Tee Time Groups: Tee time groups start their game of golf under the traditional consecutive tee time format running on ten-minute intervals and is a perfect format for groups of 24 to 56 players.
